Station Improvements

- **Cincinnati:** Amtrak issued a letter of support and will provide expertise and staff resources to the City of Cincinnati's efforts to add a station track at the historic Union Terminal. The new track also would have a new platform to provide full-length, level boarding for Amtrak's *Cardinal* service.
- **Elyria:** Amtrak is working with Lorain County to develop plans for infrastructure improvements that would allow Amtrak to serve the recently restored, historic New York Central passenger station downtown. The old station, now the Lorain County Transportation and Community Center, serves local transit and intercity buses.
